Hello BJP Community,

I hope everyone had a restful Thanksgiving break.

BJP will continue to operate **in-person** tomorrow, Monday, November 30th, just as we were doing pre Thanksgiving break.

To ensure that our community continues to remain safe, BJP has decided to move forward with partnering with labs outside of the Diocese of Brooklyn cohort. We have used their initial review of labs and documents to set up our own testing, incurring costs and moving forward on our own in order to offer more timely turn-around and keep everything in-house. This will allow the BJP Covid coordinating team to decide when to initiate testing even when outside of a state mandated cluster zone to inform our continued procedures to keep everyone safe.

To begin this testing process, everyone will be given a testing consent form tomorrow to be returned by Tuesday morning. It is also attached to this email should you have a printer at home to complete it tonight. There may be more paperwork, but this is a start.

If you have any questions, please let me know.

Gregory Arte
